

I thoroughly enjoy my XM Radio. I like the weather and traffic information around the areas that I travel. I don't know why regular radio would have a problem with what XM Radio is doing. I pay for a service; willingly. I listen to what I enjoy listening to. I got tired of listening to more talk on a radio station than any thing else and what quick minutes the regular radio stations use doesn't give anyone enough information on what is going on and where. Stop bothering us. We leave you alone; leave us alone. You still have a large audience. Enjoy them. I just prefer to pay for a different and better service. You have no right to decide what I can pay to listen to nor what a pay site like XM can give it's customers. This is totally unfair and unjustified.
